

Muhammad Hussain

Junior Full Stack Web Developer

Karachi, Pakistan | [your.email@example.com] | [WhatsApp: +92 3XX XXXXXXXX] | [github.com/your-username] | [linkedin.com/in/your-profile]

PROFILE

Passionate software engineering student and junior full stack web developer, currently studying the Advanced Diploma in Software Engineering (ADSE) at Aptech Site Center, Karachi. I enjoy creating responsive websites, modern user interfaces and functional web applications using HTML, CSS, JavaScript, Bootstrap, PHP, Laravel and MySQL. Seeking internships, junior developer roles and freelance web projects to keep growing as a full stack developer.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, Bootstrap 5, Responsive Web Design
Backend	PHP, Laravel
Database	MySQL
Tools *	VS Code, Git, GitHub, XAMPP, Postman
Other	Website Deployment, Debugging, Problem Solving, UI Implementation

* Tools are editable — remove any you have not used yet.

EDUCATION

Advanced Diploma in Software Engineering (ADSE) [Start Year] – Present
Aptech Site Center, Karachi • Currently Enrolled — 3rd semester (3 of 6 semesters completed).

Matriculation [Passing Year]
Al Asr Islamic School • Grade/Percentage: [Editable] • Subjects: [Editable]

WHAT I CAN BUILD

- Responsive landing pages that work across mobile, tablet and desktop.
- Business websites — static and dynamic — built around real requirements.
- Frontend interfaces with HTML, CSS, JavaScript and Bootstrap.
- PHP-based website features, forms and web applications.
- Structured Laravel applications and backend functionality.
- MySQL database structures and CRUD functionality.

PROJECTS

Academic and personal projects are being prepared and will be added here. Replace this line with real projects — e.g. title, tech stack, live link and GitHub repository. See my portfolio website for the latest work.

This is an editable placeholder resume generated with the portfolio template. Update the bracketed [] fields (email, WhatsApp, links, dates, grade) with your real information before sharing. Portfolio: [your-domain.com]
